

407 Series Solar Snake Tray

Hand bendable Stainless Steel Cable Conveyance for Solar Installations

CM 407-3-8-SS 3"D x 3" W x 8'L

CM 407-34-8-SS 3"D x 4"W x 8'L

Stainless Steel Connector Bolt - CB-12-SS

Solar Snake Tray® is a hand bendable stainless steel cable conveyance that quickly and securely carries DC circuitry from solar panels to their terminations. This all weather cable conveyance changes directions easily by hand and installs quickly with its built-in mounting rings. Trays connect together with a single connector bolt.
