0.25" OD

Available finishes: Pregalvanized, stainless steel,
powder coat, hot dipped galvanized

The 501 Series Wall Snake® is the perfect solution for long linear installations where space is at a premium. The 501 Series trays are hand bendable and designed to allow the tray to be directly attached to a wall without brackets using integrated mounting rings located along the center spine of the tray. These mounting rings eliminate the need for additional brackets or hanging hardware to complete the installation.
