

# Snake Charmer™

The wire manager for workstations!

Snake Charmer™ is the new wire manager for workstations. Manage the cable chaos and avoid workplace accidents by organizing the cables in an easy-to-use module that has ample capacity for today's equipment wires.

- Prevent accidents by organizing workstation wire tangles and clutter
- Minimize PC disruptions and loss of staff productivity by protecting wires and connections
- Reduce time expensed to troubleshoot corrupted workstations by discouraging tampering of PC configuration components
- Lower operating costs and maximize set-up productivity by simplifying workstation set-ups, modifications and relocations
- Get a more professional looking environment when Snake Charmer™ neatly conceals wires
- No assembly required, mounting hardware included for easy set-up

*Snake Charmer™ can be mounted to the wall, any desk side, hardware component or remain free standing*

**MADE IN THE USA**
