

Hybrid Power/Data Enclosure for Access Floors– Part of 707 Series

CM 708-DC-78-10816 (as shown)

Applications:

This economical and convenient power/data module is designed to fit seamlessly with most commercially available air diffusers. Used in raised floor applications, it provides both power and data connections in a single compact module.

Features:

- ◆ Round design allows for the module to be installed in the same size opening as standard air diffusers.
- ◆ Eliminates the need for multiple custom sized cut outs in the raised floor tiles
- ◆ Two compartment aluminum construction with steel dividers to accommodate both power and/or data connections
- ◆ Accommodates all telecommunication options
- ◆ Isolated circuits with built-in circuit protection for both isolated and general purpose applications
- ◆ Standard high performance steel cover lid with recessed lid for carpet or tile installation
- ◆ Fits into holes ranging from 8" to 8 1/2" diameter
- ◆ Available with multiple ports on side and/or bottom

Dimensions as Shown

| Diameter (OD) | Depth |
|---------------|---------|
| 9 1/8" | 5 9/16" |
