

Recessed Wall Mount Fiber Data Reception Point

CM 708-SK-0260 (as shown)

Applications:

Recessed wall mounted fiber consolidation box used to locate and integrate the functions of "passive" optical components. The stepped angled faceplate allows for up to 10 customers supplied pre-terminated SC fiber connections, allowing customers to be connected with a simple patch operation.

Features:

- ◆ Constructed from 16 GA galvanized steel with customer specified powder coat face plate finish available
- ◆ Standard 3/4" and 1" knockouts ports along sides and back of enclosure as necessary
- ◆ Integrated cable management with adjustable internally mounted fiber slack spools
- ◆ Box allows easy fiber access during installation, maintenance and the addition of fiber management modules
- ◆ Stepped faceplate design for easy patching
- ◆ Accommodates all telecommunication option
- ◆ Additional sizes available

Dimensions as Shown

Length	Width	Depth
10 1/2"	7"	3"
