Latch-Loc Snake Canyon® quickly installs to a computer access floor by latching onto the floor pedestal above the adjuster nut. Its all-in-one piece design instantly gives you a high capacity cable path that can hold close to 3,000 data cables. Latch-Loc Snake Canyon® is available in full or half basket sections and can be utilized with other Snake Canyon® models to create bridges where floor tiles are not readily removable. ***Floor type must be identified prior to order**
