

Zone Distribution Box/High Density Fiber

CM 708-1100-05-01

Applications:

The under floor fiber cassette enclosure is an ideal zone cabling solution serving as a consolidation point or zone distribution area. The in-floor enclosure saves valuable real estate by providing a secure solution under the floor which relieves congestion on racks and cabinets for installing network equipment. The enclosure can be used along with up to 14 pre-terminated fiber cassettes as a ZDA for instant data center installations and reconfigurations. The innovative lift-out tray design allows for easy cable configurations, minimizes cable pinching and will maintain proper bend radius for cable.

Features:

- Lockable secure lid design
- Fold out platform allows for accessibility to 14 fiber cassettes
- Multiple knockout configurations available, edge protected cable access points
- 14 MPO – Input/output 84 channels of SC Duplexes
- Simplified design reduces network downtime and labor costs associated with MAC work
- Constructed from 16 GA galvanized steel with customer specified powder coat finish available
- Multiple sizes available

Dimensions as Shown

Length	Width	Depth
21"	21"	8"

Snake Tray® products are covered by one or more of the following patents: #6637704, #6637165, #6463704, #6460812, #6449912, #6361000, #6347493, #6019323, #6347493, #6449912, #6460812, #5953870, #5839702, #6926236, #7168212, #7959019.
