

Fiber and Copper SCIF Secured Module

CM-708-SK-0148

Applications:

This secure box is designed to house sensitive connections under raised floors. Primarily used in SCIF and other secure venues, this box has a sliding removable cover with integrated padlock hasp. The unique design makes it impossible for entrance unless physically unlocked, keeping out all unwanted personnel. All seams are electronically welded for a completely enclosed and secure module.

Features:

- Lockable secure lid design with pad lock hasp
- Constructed from 16 GA galvanized steel with customer specified powder coat finish available
- Completely welded seams
- Available with or without knockouts
- Complete with built-in cable management and fiber cassette mounting structure
- 110 block mounting positions
- Custom configurations are available
