

# CASE STUDY

## Solar Snake Tray® 407 Series Hand Bendable Cable Management

### Project

70 Kilowatts  
Laminate PV Modules

### Location

Texas

### Products Used

CM 407-0881-10-PC-GY-S6 — Solar Snake Tray Cable Tray  
CM 407-SF-7 — Solar Snake Foot Roof Mount  
CB-12-SS304 — Cable Tray Connector  
CM 407-81-180-C-60 — Cable Tray Cover

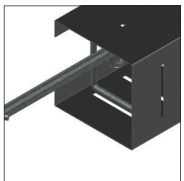

### Installation Time

- 8 hours for Solar Snake Tray® vs. 24 hours for conduit
- 24 hours for PV wire installation vs. approximately 3 weeks for conduit

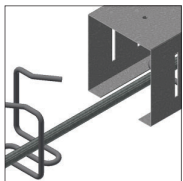

### Key Product Benefits

- Hand bendable to go around obstacles
- "Lobster Trap" design to secure cables
- Cable Trays connect together with one connector
- Low profile minimizing shade
- Easy PV wire installation
- Available for pre-inspection by AHJ
- Allows for multiple entry and exit of PV Cables
