

CASE STUDY

Solar Snake-Loc Cable Hanger

Project

Ground Mount
15 Megawatts
Monocrystalline solar modules (Glass)

Location

New Zealand

Products Used

CM 407-SK-0985 — Snake-Loc Cable Hangers
CM 407-105-11637 — Bracket
CM 407-81-11914 — Alumoweld™ Messenger Wire
CM 407-BondingKit-5

Installation Time

6 hours using Snake-Loc Cable Hangers vs. 40 hours using buried conduit

Key Product Benefits

- Locks on messenger cable to maintain required NEC spacing of 2 ft for support cables smaller than 350 Kcmil
- Easy PV wire installation
- Available for pre-inspection by AHJ
- Allows for multiple entry and exit for PV cables
- Integrated bonding
- System manages string cables and homerun trunk cables
