

Waterfall Turnout

Inside the data center, cable management is as important as the equipment itself. Supporting and running large amounts of cables is a challenge especially when those cables need to exit the tray. Snake Tray's side mounted cable drop out offers ultimate support for the high capacity data center cable runs while not compromising the cable tray itself. The unit allows for simple cable egress directly off the side of the tray without having to make any cuts or modifications preserving the strength and integrity of the tray. Ideally suited for supporting and protecting copper and fiber optic cables as they enter and exit the tray.

- Powder Coated Safety Yellow
- Provides a smooth surface for horizontal cable direction changes.
- The 180° smooth bend ensures cables do not have any potential pinch points or kinks.

Part Number	Description
CM 708-75-11065	12" WATERFALL TURNOUT
CM 708-75-11056	18" WATERFALL TURNOUT
CM 708-75-11066	24" WATERFALL TURNOUT
